

Why is ETFO on strike?

The future of our world-class public education is at stake!

The Ford Conservative government has made substantial cuts to public education in per-student funding, Special Education teachers, funding to support Indigenous students, at risk students and English language learners.

In ETFO's bargaining talks, this government is asking for more cuts to education, including a \$150 million cut in public elementary budgets.

In ETFO's bargaining talks, this government is asking for more cuts to education, including a \$150 million cut in public elementary budgets.

We can't accept this!

Not as educators and not as parents.

Government negotiators said that they have no mandate to discuss critical issues for students and educators including ETFO's proposals for:

- smaller classes where students get the help they need;
- more resources for students with special needs;
- protection of our world-renowned Kindergarten program; and
- safe and healthy schools and reduction of violent incidents.

If the government is so concerned with keeping children in classrooms then it needs to get to the bargaining table, demonstrate real progress and offer an investment in education NOT cuts.

Ontario's Education Minister Stephen Lecce and Premier Ford are jeopardizing our world-class public education system, now and in the future.

Ontario's Education Minister Stephen Lecce and Premier Ford are jeopardizing our world-class public education system, now and in the future.

Cuts to education funding and critical programs by the government are very hard to reverse. Elementary educators are striking to pressure the government to take negotiations and the future of our children seriously. The programs elementary educators are fighting for today will have an impact on the education of generations of students to come.

The public education that students need and deserve cannot be hijacked by a government whose only aim to date has been to make funding cuts and support corporate elites.
